

Email Configuration & Emoji Fix Report

Mindful Champion App - December 3, 2025

Executive Summary

Successfully configured the Gmail SMTP email system with multiple “From” addresses and replaced all tennis ball emojis (🎾) with pickleball paddle emojis (🥎) throughout the entire codebase.

Completed Tasks:

1. Updated `.env` file with new Gmail credentials and “From” addresses
 2. Updated email configuration code to use SMTP credentials with different “From” addresses
 3. Replaced all 🎾 emojis with 🥎 emojis (88 occurrences across 55 files)
 4. Tested email configuration - **All tests passed!** 
-

Email Configuration Changes

1. Updated `.env` File

File: `/home/ubuntu/mindful_champion/nextjs_space/.env`

Changes Made:

- Updated Gmail credentials:

```
GMAIL_USER=Dean@mindfulchampion.com
```

```
GMAIL_APP_PASSWORD=bfdbgtoaenlyxkgh
```

• Added specialized “From” addresses:

```
EMAIL_FROM_SPONSORS=sponsors@mindfulchampion.com
```

```
EMAIL_FROM_PARTNERS=partners@mindfulchampion.com
```

```
EMAIL_FROM_COACH_KAI=coachkai@mindfulchampion.com
```

```
EMAIL_FROM_ADMIN=admin@mindfulchampion.com
```

```
EMAIL_FROM_SUPPORT=support@mindfulchampion.com
```

```
EMAIL_FROM_WELCOME=welcomefrommc@mindfulchampion.com
```

2. Updated Email Service Configuration

File: `/home/ubuntu/mindful_champion/nextjs_space/lib/email/gmail-service.ts`

Changes Made:

Updated Email Sender Configurations:

- **WELCOME** - `welcomefrommc@mindfulchampion.com` - “Coach Kai - Mindful Champion 🥎”
- **COACH_KAI** - `coachkai@mindfulchampion.com` - “Coach Kai 🥎”
- **SUPPORT** - `support@mindfulchampion.com` - “Mindful Champion Support 🗨️”
- **PARTNERS** - `partners@mindfulchampion.com` - “Mindful Champion Partnerships 🤝”

- **SPONSORS** - `sponsors@mindfulchampion.com` - “Mindful Champion Sponsors 🎯”
- **ADMIN** - `admin@mindfulchampion.com` - “Mindful Champion Admin 🛡️”

New Email Types:

```
export type EmailType =
  | 'WELCOME'           // Welcome emails, general notifications
  | 'COACH_KAI'         // Coach Kai specific emails
  | 'SUPPORT'           // Support inquiries, help
  | 'PARTNERSHIP'       // Partner communications
  | 'SPONSORSHIP'       // Sponsor applications/communications
  | 'ADMIN'             // Admin/billing emails
  | 'CUSTOM';           // Custom sender
```

New Helper Functions:

- `sendWelcomeEmail()` - Sends emails from `welcomefrommmc@mindfulchampion.com`
- `sendCoachKaiEmail()` - Sends emails from `coachkai@mindfulchampion.com`
- `sendSupportEmail()` - Sends emails from `support@mindfulchampion.com`
- `sendPartnershipEmail()` - Sends emails from `partners@mindfulchampion.com`
- `sendSponsorshipEmail()` - Sends emails from `sponsors@mindfulchampion.com`
- `sendAdminEmail()` - Sends emails from `admin@mindfulchampion.com`

🔑 Emoji Replacement

Statistics:

- **Total Occurrences:** 88 instances of 🔑 found
- **Files Modified:** 55 source files
- **Replacement:** All 🔑 replaced with 🔑

Files Modified (Key Files):

Email & Notification Files:

1. `lib/email/config.ts`
2. `lib/email/templates/video-analysis-complete.ts`

7. NOTIFICATION_SYSTEM.md
8. TESTING_GUIDE.md
9. VIDEO_FEATURES_ACCESS_GUIDE.md

Testing Results

Test Script Created:

File: test-gmail-config.js

Test Results:

```

 Gmail SMTP Connection Successful!

 Email Sender Configurations:
=====

WELCOME:
  From: "Coach Kai - Mindful Champion 🧡" <welcomefrommc@mindfulchampion.com>

COACH_KAI:
  From: "Coach Kai 🧡" <coachkai@mindfulchampion.com>

SUPPORT:
  From: "Mindful Champion Support 💬" <support@mindfulchampion.com>

PARTNERS:
  From: "Mindful Champion Partnerships 🤝" <partners@mindfulchampion.com>

SPONSORS:
  From: "Mindful Champion Sponsors 🎯" <sponsors@mindfulchampion.com>

ADMIN:
  From: "Mindful Champion Admin 🛡️" <admin@mindfulchampion.com>

=====

 Email Configuration Test Complete!

 All email senders are properly configured.
 Ready to send emails from multiple addresses.

```

Verification:

-  Gmail credentials loaded successfully
-  All 6 “From” addresses configured
-  SMTP connection verified
-  Email service ready to send
-  Emoji replacements verified in sample files

Summary Statistics

Metric	Count
Files Modified	56
Emoji Replacements	88
Email Sender Types	6
Configuration Files	2
Test Scripts Created	1
API Routes Updated	4
Components Updated	20
Documentation Updated	9

Impact & Benefits

Email System Improvements:

1. **Multiple From Addresses** - Different email types now come from appropriate addresses
2. **Better Organization** - Clear separation between sponsors, partners, support, etc.
3. **Professional Branding** - Each email type has a specific sender identity
4. **Gmail SMTP** - Reliable email delivery through Gmail's infrastructure

Emoji Consistency:

1. **Brand Alignment** - Pickleball-specific emoji (🏓) throughout app
2. **User Experience** - Consistent visual identity in emails and UI
3. **Sport Accuracy** - Tennis ball (🎾) replaced with pickleball paddle (🏓)

How to Use

Sending Emails with Specific “From” Addresses:

```
import {
  sendWelcomeEmail,
  sendCoachKaiEmail,
  sendSupportEmail,
  sendPartnershipEmail,
  sendSponsorshipEmail,
  sendAdminEmail
} from '@lib/email/gmail-service';

// Welcome email
await sendWelcomeEmail(
  'user@example.com',
  '👉 Welcome to Mindful Champion!',
  htmlContent
);

// Coach Kai email
await sendCoachKaiEmail(
  'user@example.com',
  'Your Training Tips from Coach Kai 🏆',
  htmlContent
);

// Support email
await sendSupportEmail(
  'user@example.com',
  'Re: Your Support Request',
  htmlContent
);

// Partner email
await sendPartnershipEmail(
  'partner@example.com',
  'Partnership Opportunity',
  htmlContent
);

// Sponsor email
await sendSponsorshipEmail(
  'sponsor@example.com',
  'Sponsorship Application Status',
  htmlContent
);

// Admin/billing email
await sendAdminEmail(
  'user@example.com',
  'Your Subscription Invoice',
  htmlContent
);
```

Verification Checklist

- [x] Gmail credentials updated in .env

- [x] All “From” addresses configured in .env
- [x] Email service code updated with new sender types
- [x] Helper functions created for each email type
- [x] All 88 🎾 emojis replaced with 🍷
- [x] 55 source files updated
- [x] Gmail SMTP connection tested successfully
- [x] Test script created and passing
- [x] Email configurations verified

Next Steps

1. **Test Email Sending** - Send test emails using each “From” address type
2. **Monitor Delivery** - Check email delivery rates and bounce rates
3. **Update Email Templates** - Ensure all email templates use appropriate sender types
4. **Documentation** - Update team documentation with new email system usage

Notes

- All changes are backward compatible
- Previous Resend email service configuration remains intact
- Gmail SMTP credentials are properly secured in .env file
- Email service automatically falls back to mock mode if credentials are missing
- All emojis now consistently use 🍷 (pickleball paddle) instead of 🎾 (tennis ball)

Conclusion

Successfully configured a professional email system with multiple “From” addresses and fixed emoji consistency throughout the entire Mindful Champion application. The system is now ready to send emails with appropriate sender identities for different types of communications.

Status:  **COMPLETE**
