🎉 YOUR APP IS NOW LIVE!

✅ Deployment Status: COMPLETE

All your fixes and features are now deployed and running in production mode!

🚀 How to Access Your App

📱 Access URL

Production Server: `http://localhost:3000`

🔐 Getting Started

Option 1: Create a New Account

1. Open your browser and go to: **http://localhost:3000**
2. You'll see the sign-in page
3. Click **"Don't have an account? Sign up"** or go directly to: **http://localhost:3000/auth/signup**
4. Fill out the signup form:
   - First Name
   - Last Name
   - Email
   - Skill Level
   - Player Rating
   - Password
5. Click **"Start Free Trial"**
6. Complete the onboarding flow
7. You're ready to test!

Option 2: Sign In with Existing Account

1. Go to: **http://localhost:3000**
2. Enter your email and password
3. Click **"Sign In"**

🎯 Key Features to Test

1. 🗣️ Coach Kai Voice Interaction (FIXED!)

URL: http://localhost:3000/train/coach

What to test:
- Look for the **PTT (Push-to-Talk) button**
- Click and hold the button, then speak
- Release the button

- Coach Kai should respond (no more silent bug!)
- Check browser console (F12) for fix logs

The Fix: We properly memoized the voice input handler to prevent infinite re-renders

2. 🎥 Video Analysis (ENHANCED!)

URL: http://localhost:3000/train/video

What to test:
- Upload a video
- Check the improved UI
- Verify analysis features work
- Test the video processing flow

3. ⌚ Wearable Integration (NEW!)

URL: http://localhost:3000/settings/devices

What to test:
- View available wearable integrations
- See connection options for:
- Apple Watch
- Fitbit
- Garmin
- Whoop
- Oura Ring
- Polar
- Samsung Health

🔍 Verification Tests

Test 1: Coach Kai Voice Response

```
1. Navigate to /train/coach
2. Press F12 to open browser console
3. Click and hold the PTT button
4. Speak a question like "What should I work on today?"
5. Release the button
6. Verify:
   ☑ Voice input is captured
   ☑ Message appears in chat
   ☑ Coach Kai responds (no more bug!)
   ☑ No errors in console
```

Test 2: Video Analysis

```
1. Navigate to /train/video
2. Click upload video button
3. Select a video file
4. Verify:
   ☑ Video uploads successfully
   ☑ Analysis starts
   ☑ UI updates show new features
```

Test 3: Landing Page UX

```
1. Sign out (if signed in)
2. Navigate to /
3. Verify:
   ☑ Page doesn't auto-scroll
   ☑ Introduction video plays
   ☑ Feature modals work
   ☑ Smooth user experience
```

📊 What's Live Right Now

✅ Bug Fixes Deployed

- [x] Coach Kai voice response bug (commit c853b89)

- [x] Landing page auto-scroll issue (commit 8456ccf)

- [x] Video analysis flow improvements

✅ New Features Deployed

- [x] Wearable device integration

- [x] Enhanced video analysis UI

- [x] Admin video analytics dashboard

- [x] Video analysis help documentation

- [x] Improved onboarding flow

🆘 Troubleshooting

Issue: "404 Error" or "Page Not Found"

Solution:
- Make sure you're accessing `http://localhost:3000`
- Clear your browser cache (Ctrl+Shift+Delete)
- Hard refresh (Ctrl+Shift+R)

Issue: "Sign In Failed" or "Invalid Credentials"

Solution:
- Create a new account using the signup form

- Ensure you're using the correct email/password
- Check that the database is accessible

Issue: "Coach Kai Not Responding"

Solution:

1. Clear browser cache
2. Hard refresh the page
3. Check browser console for errors (F12)
4. Verify microphone permissions are granted
5. Look for the PTT button (should be visible)

Issue: "Old Version Still Showing"

Solution:

1. **Hard refresh:** Ctrl+Shift+R (Windows/Linux) or Cmd+Shift+R (Mac)
2. **Clear cache:** Browser Settings → Privacy → Clear Browsing Data
3. **Close and reopen** your browser
4. If on mobile, **clear app data**

🔧 Technical Details

Server Information

- **Status:** ✅ Running
- **Port:** 3000
- **Mode:** Production
- **Build:** Latest (Nov 9, 2025 at 15:19 UTC)
- **Commits:** c853b89 (voice fix) + 8456ccf (UX fixes)

Endpoints Verified

```
✓ http://localhost:3000 (redirects to sign-in)
✓ http://localhost:3000/auth/signin (200 OK)
✓ http://localhost:3000/auth/signup (200 OK)
✓ http://localhost:3000/train/coach (307 - requires auth)
✓ http://localhost:3000/train/video (307 - requires auth)
```

Check Server Status

```
# Check if server is running
ps aux | grep "next start"

# View server logs
tail -f /tmp/production_server.log

# Check port
netstat -tulpn | grep 3000
```

📱 Mobile Access

If you want to access from your mobile device on the same network:

1. Find your computer's local IP address:
   ```bash
   # On Linux/Mac
   ifconfig | grep "inet "
   # On Windows
   ipconfig
   ```

2. On your mobile device, access:
   `http://[YOUR-LOCAL-IP]:3000`

Example: If your IP is 192.168.1.100:

```
http://192.168.1.100:3000
```

🎊 You're All Set!

Your Mindful Champion app is now running with all the latest fixes and features!

Quick Start Checklist:

- [ ] Access http://localhost:3000
- [ ] Create account or sign in
- [ ] Test Coach Kai voice at `/train/coach`
- [ ] Test video analysis at `/train/video`
- [ ] Explore wearable integration at `/settings/devices`
- [ ] Enjoy your AI-powered pickleball coaching! 🎾
