

Cache Clear Guide for MindfulChampion.com

Issue Summary

You're seeing the **old HeyGen-based Coach Kai** interface on your device, but the **new text-based Coach Kai** is actually deployed and working correctly on the live site.

Verification

✅ **Confirmed:** The new TextCoachKai component is live at <https://www.mindfulchampion.com/train/coach>

What You Should See (New Version):

- **Header:** "COACH KAI" with "AI COACH" and "BETA" badges
- **Status:** "✓ Ready" indicator
- **Voice Toggle:** "Voice Off" button in top right
- **PTT Feature:** Large microphone icon with "Hold to Talk" text
- **Text Input:** "What's on your mind?" input field with send button
- **Quick Actions:** Four buttons at bottom (Serve Help, Footwork, Mental Game, Strategy)
- **NO:** Video avatar, "Connecting..." message, or "Video avatar uses HeyGen credits" text

What You're Seeing (Old Cached Version):

- Video player area with "Connecting..." status
- "Video avatar uses HeyGen credits • Text chat is always free" message
- HeyGen integration UI elements

Root Cause

This is a **browser caching issue**. Your browser has stored the old version of the page and is serving that instead of fetching the new version from Vercel.

How to Fix: Clear Your Browser Cache

For Chrome (Desktop):

Method 1: Hard Refresh (Quickest)

1. Go to <https://www.mindfulchampion.com/train/coach>
2. Press **Ctrl+Shift+R** (Windows/Linux) or **Cmd+Shift+R** (Mac)
3. This forces Chrome to bypass the cache and reload everything

Method 2: Clear Cached Images and Files

1. Press **Ctrl+Shift+Delete** (Windows/Linux) or **Cmd+Shift+Delete** (Mac)
2. Select **"Cached images and files"**
3. Change time range to **"All time"**

4. Click **“Clear data”**

5. Reload the page

Method 3: Clear All Site Data (Nuclear Option)

1. Click the **padlock icon** in the address bar

2. Click **“Site settings”**

3. Scroll down and click **“Clear data”**

4. Reload the page (you’ll need to log in again)

For Safari (Mac/iOS):

Safari Desktop:

1. Go to **Safari > Settings** (or Preferences)

2. Click **“Advanced”** tab

3. Enable **“Show Develop menu in menu bar”**

4. Go to **Develop > Empty Caches**

5. Or press **Option+Cmd+E**

6. Reload the page with **Cmd+R**

Safari iOS (iPhone/iPad):

1. Go to **Settings > Safari**

2. Scroll down and tap **“Clear History and Website Data”**

3. Confirm by tapping **“Clear History and Data”**

4. Reopen Safari and visit the site

For Firefox:

1. Press **Ctrl+Shift+Delete** (Windows/Linux) or **Cmd+Shift+Delete** (Mac)

2. Select **“Cache”** and **“Cookies”**

3. Change time range to **“Everything”**

4. Click **“Clear Now”**

5. Reload the page

For Edge:

1. Press **Ctrl+Shift+Delete**

2. Select **“Cached images and files”** and **“Cookies and other site data”**

3. Change time range to **“All time”**

4. Click **“Clear now”**

5. Reload the page

Verification After Clearing Cache

After clearing your cache, you should see:

1. **Green teal header** with Coach Kai’s “K” avatar

2. **“Talk to Coach Kai”** section with microphone icon

3. **PTT (Push-To-Talk)** functionality with “Hold to Talk” label

4. **Text input field** for typing messages

5. **Quick action buttons** at the bottom (Serve Help, Footwork, Mental Game, Strategy)
 6. **NO video player** or **“Connecting...” message**
-

If the Issue Persists

If you still see the old version after clearing cache:

1. Check Your Browser Extensions

- Disable any caching or performance extensions temporarily
- Ad blockers or privacy extensions might cache pages

2. Try Incognito/Private Mode

- Open an Incognito window (Ctrl+Shift+N in Chrome)
- Visit <https://www.mindfulchampion.com/train/coach>
- If it works here, it confirms a caching issue in your regular browser

3. Try a Different Browser

- Open the site in a different browser you don't normally use
- If it works there, clear cache more thoroughly in your main browser

4. Check Your Device DNS Cache

Windows:

```
ipconfig /flushdns
```

Mac:

```
sudo dscacheutil -flushcache  
sudo killall -HUP mDNSResponder
```

Linux:

```
sudo systemd-resolve --flush-caches
```

Technical Details (For Reference)

- **Deployed Version:** Commit `3c49d6d` (27 minutes ago as of this check)
 - **Coach Kai Component:** `components/coach/text-coach-kai.tsx`
 - **Route:** `app/train/coach/page.tsx` renders `<TextCoachKai />`
 - **HeyGen Removal:** Commit `dbe3303` successfully removed all HeyGen dependencies
 - **Vercel Status:**  Successfully deployed with latest code
 - **DNS Status:**  Properly configured with Vercel nameservers
-

Why This Happened

1. **Aggressive Browser Caching:** Modern browsers cache React/Next.js applications heavily for performance
2. **Service Workers:** PWAs and service workers can cache entire pages
3. **CDN Edge Caching:** Vercel's edge network may have cached the old version briefly
4. **DNS Propagation:** Recent DNS changes to Vercel nameservers (ns1.vercel-dns.com, ns2.vercel-dns.com)

The good news: **The deployment is correct and working!** You just need to clear your local cache to see it.

Quick Test

Run this in your browser's console (F12 > Console tab):

```
console.log(window.location.href);
fetch('/train/coach').then(r => r.text()).then(html =>
  console.log(html.includes('TextCoachKai') ? '✅ NEW VERSION' : '❌ CACHED VERSION')
);
```

This will tell you if you're getting the new version from the server.
