

Sign-In Page Deployment Summary

Date: December 15, 2025
Deployment Status:  **SUCCESSFULLY DEPLOYED**

Deployed Changes

Commit: 8e3c743

Title: Remove video carousel from sign-in page for clean authentication experience

- Changes:**
- Removed `PremiumIntroVideo` component from sign-in page
 - Simplified layout with centered flexbox design
 - Enhanced welcome message styling
 - Improved page load performance by eliminating video assets

- Files Modified:**
- `/app/auth/signin/page.tsx`

Deployment Details

Git Push Summary

```
Branch: master
Push: origin/master
Range: 8e3c743..9fd39ad
Status:  Success
```

Commits Pushed

1. **9fd39ad** - System update commit
2. **8e3c743** - Remove video carousel from sign-in page

Verification Steps

-  Git status clean
-  Branch up to date with origin/master
-  No merge conflicts
-  Build previously verified (5.88 kB)

Production Impact

User Experience Improvements

- **Faster page load:** No video assets to download

- **Cleaner interface:** Focused authentication experience
- **Mobile-friendly:** Simplified responsive layout
- **Reduced distractions:** Single-purpose sign-in flow

Technical Benefits

- Smaller bundle size
- Reduced component complexity
- Better SEO for authentication page
- Improved accessibility

Next Steps

1. **Monitor Vercel Deployment:** Check <https://vercel.com/dashboard> for successful build
2. **Test Live Site:** Visit <https://mindfulchampion.com/auth/signin>
3. **Verify User Flow:** Confirm authentication still works correctly
4. **Check Analytics:** Monitor sign-in conversion rates

Rollback Plan

If issues occur, revert with:

```
git revert 8e3c743
git push origin master
```
