- **Status:** Failed (403 Forbidden)
- **Error:** Access denied to <https://ppatour.com/schedule/>

- **Note:** Website may have implemented bot protection or changed access requirements

Database Operations

- Successfully connected to PostgreSQL database
- All 14 tournaments were successfully updated in the PickleballEvent table
- Database connection properly closed after operations

Notes

- The PPA Tour website returned a 403 Forbidden error, likely due to bot protection measures
- All other sources (MLP, APP Tour, USA Pickleball) fetched successfully
- No new tournaments were created; all 14 fetched tournaments already existed in the database and were updated with latest information
- Script execution completed in approximately 4 seconds

Next Steps

- Monitor PPA Tour access issue in future runs
- Consider implementing alternative methods for PPA Tour data if issue persists (e.g., API access, different scraping approach)
